

WaiCOMPLY

HYGIENE CODE OF PRACTICE

Solutions for Water Suppliers

info@waicomply.co.nz

A SUMMARY OF HYGIENE CODE OF PRACTICE SERVICES AVAILABLE

The operational implementation of the principles of Hygiene across the Water Supply System is significant to maintain the integrity of the supply and ensure the continued delivery of safe drinking water to customers.

Every Water Supplier should have a Hygiene Code of Practice (HCOP). We have a national Good Practice Guide (2019) which provides a structure for Water Suppliers to use as an excellent starting point.

Wai Comply can provide support to Water Suppliers with robust documentation, training and field documents to ensure safety of the water supplied to our community.

WaiCOMPLY
